

PRASHANT KUMAR

B.Tech CSE (Final Year) • Java Full-Stack Developer Trainee • Open to Internship

+91-8544034109 | prashantrk.2467@gmail.com | Meerut, Uttar Pradesh | github.com/prashantkumar2467 | linkedin.com/in/prashantkumar2467

PROFILE

Final-year B.Tech Computer Science and Engineering student (2023–2027) at Meerut Institute of Technology (AKTU), with a solid foundation in Core Java, Object-Oriented Programming, and SQL. Currently undergoing Wipro TalentNext Java Full Stack Training, building practical skills in Java-based application development. Seeking a Java Developer or Software Development internship to apply and grow these skills in a real-world engineering environment.

Core Java • Object-Oriented Programming • DBMS • SQL

TECHNICAL SKILLS

Languages: Java, C, JavaScript (Basic), HTML5, CSS3

Core Java: OOP, Exception Handling, Collections Framework, Multithreading, File Handling, JDBC, JUnit

Database: SQL, PL/SQL, MySQL (Learning), PostgreSQL (Exposure via team project)

Frontend: React.js, Tailwind CSS, Bootstrap, Chart.js (Basic)

Backend: Node.js, Express.js

Tools: Git, GitHub, VS Code, Eclipse IDE

PROJECTS

CampusCode — Team Project

Coding Contest & Academic Tracking Platform | PERN Stack (React.js, Tailwind CSS, Node.js, Express.js, PostgreSQL)

- Developed the responsive frontend using React.js and Tailwind CSS — my core contribution — building role-specific interfaces for students, faculty, and administrators.
- Implemented JWT-based authentication on the frontend and integrated it with backend APIs to support secure, role-based access control.
- Collaborated within a cross-functional team, integrating frontend components with PostgreSQL-backed APIs and a real-time discussion forum module.

Winner — College Idea Pitching Competition: Secured 1st place pitching CampusCode; recognized for architecture planning and communication.

Railway Seat Reservation System — Personal Project

Java | Multithreading

- Designed and developed a console-based railway seat reservation system in Core Java.
- Implemented synchronized methods to prevent concurrent seat allocation and avoid double-booking.
- Simulated multiple simultaneous passenger requests using multithreading to model real-world booking load.
- Demonstrated thread safety by identifying and resolving race conditions on shared resources.

EDUCATION

B.Tech — Meerut Institute of Technology (AKTU)

2023 – 2027

CGPA: 6.48 / 10.0

Class XII — CBSE

2023

68% (CGPA: 7.24)

Class X — CBSE

2020

74.9% (CGPA: 7.88)

CERTIFICATIONS & TRAINING

Full Stack Web Development with AI Tools — Edunet & AICTE | ID: NG26_47729

Wipro TalentNext - Java Full Stack Developer Training (In Progress)
